CLERK: 25 ayes, 0 nays, Mr. President, on adoption of Senator Warner's amendment.

PRESIDENT: The amendment is adopted. Senator Vard Johnson.

SENATOR V. JOHNSON: Mr. Speaker, members of the body, as Senator Warner rightfully points out, and it is an important point for everybody to realize whether they are for or against LB 130 is that because it does have a small fiscal impact it needs an A bill and the A bill of course has to move right along with the regular bill because if it doesn't then the regular bill will simply come up in the regular course of events. With the A bill attached why this bill will not come up until like the last ten days of the legislative session. This is an A bill for \$134,000 of state expenditures designed essentially to take care of the inspections and the regulations of the various enterprises that are involved. Incidentally, I do believe that the A bill is higher than it needs to be based on previous fiscal notes, previous conversations and the like, but there will be plenty of time between now and the end of this session to get the A bill in the right form to reflect what agency attitudes truly are. At this time I would move LB 130A.
